DIRECTORS' REPORT

for the year ended 31 December 2008

The directors submit their annual report and the audited financial statements of The Church of Jesus Christ of Latter-day Saints (European Distribution) Limited, Company number 1119344, for the year ended 31 December 2008.

LEGAL AND ADMINISTRATIVE INFORMATION

The Church of Jesus Christ of Latter-Day Saints (European Distribution) Limited is a private limited company.

BRANCHES

As at the 31 December 2008 the Company had a branch in Germany. It had previously had branches in Denmark and Sweden which were sold on 31 December 2008.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activities of the Company during 2008 were the retailing of clothing, CDs, curriculum and magazines, operating cafeterias, provision of accommodation for patrons and other activities on behalf of The Church of Jesus Christ of Latter-day Saints in the United Kingdom and Ireland from locations in the United Kingdom. There are no retail centres in Ireland.

The company also operates in Germany and operated in Denmark and Sweden until 31 December 2008. The activities in the branches are the same as the UK Head Office serving customers in mainland Europe.

The UK branch finished the year in a profitable position. This was primarily due to a large increase in the amount of grant income received.

The German branch finished the year in a loss-making position. This was primarily due to a large reduction in the level of grant income received and the effects of a decline in the world economy.

KEY PERFORMANCE INDICATORS

The key performance indicators and the corresponding results are illustrated in the following table:

Key Performance Indicator	2008	2007	Reasons
(Decrease)/growth in sales	-4%	7%	Inflationary effects on costs and reduced demand
Return on sales	-23%	-21%	Grant income increased but greater increase in costs
(Decrease)/increase in Cash Flow	-£2,447,288	£3,554,767	2008 increase in parent loans, 2007 share capital issue

RESULTS

The loss of the company for the year was £1,539,643 (2007:loss of £1,373,530).

The directors do not recommend the payment of a dividend (2007:£nil), which leaves an accumulated deficit of £12,436,657 (2007: £10,897,014) to be carried forward.

Assurances of continued financial support have been received from the Corporation of the Presiding Bishop.

The Swedish and Danish branches were sold on 31 December 2008. The trading operations of the United Kingdom head office were disposed on 20 May 2009. The retail business of the German branch was sold on 31 August 2009 and distribution hub and warehouse operations of the German branch were sold on 31 October 2009.

The directors who served during the year and up to the date of signing the financial statements were:-

P Berkhahn		
T Spallino	Resigned	21 February 2008
C Jolliffe	Resigned	10 December 2008
MB Robertson	Appointed	21 February 2008
GW Reeves	Appointed	10 December 2008

None of the directors had, at any time during the year, a beneficial interest in the share capital of the company. None of the directors have qualifying third party indemnity insurance.

HUMAN RESOURCES

The company has the policy of ensuring that its employees are those that are able to meet the necessary requirements of their position and are up to date on any developments required for their position. This is achieved in a variety of ways:

Applications for new positions in the company are invited from anyone with the relevant qualifications - the key emphasis is on their ability to meet the requirements of the position although the application form does request the applicant to mention if they have any illnesses or medical condition which the employer would need to be aware of in order to make reasonable adjustments should they be successful.

The company utilises regular staff meetings during the year which help to ensure that the employees' input is received regarding any decisions which affect their interests. In addition there are websites and e-mail facilities available to enable more effective communication and training. This helps to ensure that employees receive systematic updates on matters concerning them as employees and ensures their involvement in relation to the financial and economic factors that affect the performance of the company.

In addition, the company is mindful of the need to cater for those with disabilities. Where any employees become incapacitated during their employment they are entitled to receive long term disability benefits from the company. Where an employee becomes disabled but not incapacitated, the employer will make any reasonable adjustments necessary. On training and career development issues, there is no distinction made between disabled and non-disabled employees. The same opportunities are available to all staff, irrespective of disability. The key emphasis is on technical ability of each employee.

FINANCIAL RISK AND MANAGEMENT

The following statements summarise the company's policy in managing identified forms of financial risk:

Price risk

The company negotiates grants awarded to finance the company's activities and incorporates this information into its business plans. Salary costs are communicated to staff during the formal annual review of salaries. Prices of materials purchased are subject to contracts with suppliers, based on current market prices.

Credit risk

Credit risk on amounts owed to the company by its customers is low, as the customers are almost entirely church members.

Liquidity risk

The company has no long term borrowings. The parent company has confirmed their financial support to the extent and as long as there exist a deficiency of shareholders' funds.

Interest rate cash flow risk

The company is able to place surplus funds on short term deposit account with the company's bankers as required.

In addition the trustees have a risk management strategy which encompasses the following:

- an annual review of the risks the company may face;
- the establishment of systems and procedures to mitigate those risks identified in the plan;
- the implementation of procedures designed to minimise any potential impact on the company should those risks materialise.

The primary risk the company faces is the fact that sales are primarily to members of the Church but the parent company has confirmed its future financial support as and when needed.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business, in which case there should be supporting assumptions or qualifications as necessary.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the requirements of the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT ON DISCLOSURE OF INFORMATION TO THE AUDITORS

So far as each director is aware, there is no relevant audit information of which the company's auditors are unaware.

Each director has taken all the steps (such as making enquiries of other directors and the auditors and any other steps required by the director's duty to exercise due care, skill and diligence) that he ought to have taken in his duty as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

INDEPENDENT AUDITORS

The Company has elected, in accordance with section 386 of the Companies Act UK 1985, to dispense with the obligation to appoint auditors annually.

ACCOUNTING POLICIES

for the year ended 31 December 2008

BASIS OF ACCOUNTING

The financial statements are prepared in compliance with the Companies Act 1985 and with applicable accounting standards in the United Kingdom and under historical cost convention. The following accounting policies have been applied consistently in dealing with items which we considered material in relation to the company's financial statements.

GOING CONCERN

The ultimate parent company has undertaken to continue its financial support of the company to the extent of, and as long as there exists a deficiency of shareholders' funds, and for at least the next twelve months from the approval of the financial statements.

CONSOLIDATION OF GERMAN, SWEDISH AND DANISH BRANCH

For the purpose of reporting in these financial statements, the profit and loss accounts, cash flows and balance sheets of the German, Swedish & Danish branches have been consolidated with those of the Head office operations which cover the UK and Ireland.

TURNOVER

Turnover represents the invoiced value, net of Value Added Tax, of goods sold and services provided to customers recognised on an accruals basis.

FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are shown at original purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Individual fixed assets costing £5,000 or more are capitalised at cost. Depreciation is provided on all tangible fixed assets at rates calculated to write each asset down to its estimated residual value evenly over its expected useful life, as follows:-

Plant and machinery	10%
Fixtures and fittings	10%

GRANT INCOME/EXPENSE

Grant income/expense arises entirely from the forgiveness of intercompany balances to and from the parent company.

OPERATING LEASES

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the statement of financial activities on a straight line basis over the lease term.

FOREIGN CURRENCY TRANSLATIONS

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date and non monetary assets and liabilities at historical rates. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account in the year in which they arise.

DEFERRED TAXATION

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred at the balance sheet date. Deferred tax assets are only recognised when it is considered more likely than not that there will be suitable taxable profits from which the future reversal of any underlying timing differences can be deducted. Timing differences arise between the company's taxable profit and its results as stated in the financial statements. Deferred tax is measured at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse. Deferred tax is measured on an undiscounted basis.

THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS (EUROPEAN DISTRIBUTION) LIMITED

ACCOUNTING POLICIES

for the year ended 31 December 2008 (continued)

PENSION CONTRIBUTIONS

The Head office is a member of a multi-employer Deseret UK Benefit Plan that is of a defined benefit type and retirement benefits are payable through a separately funded UK pension scheme. The company has followed the requirements of Financial Reporting Standard Number 17, Retirement Benefits and as the company is unable to identify its share of the underlying assets and liabilities of the scheme it is accounted for as a defined contribution scheme. Full details of the plan are provided in the financial statements of The Church of Jesus Christ of Latter-day Saints (Great Britain).

The Company participates in a multi employer defined benefit scheme for its German branch which was acquired on 1 January 2003. The company is unable to identify its share of the German scheme's assets and liabilities and has followed the requirements of Financial Reporting Standard Number 17, Retirement Benefits. The company is responsible for pensionable commitments from the acquisition date and contributions to the pension scheme are charged to the profit and loss account in the year in which they are payable. Prior pensionable commitments remain with Kirche Jesu Christi der Heiligen der Letzten Tage, an Association established under German law who are obliged to fund any resulting deficiency. Accordingly the scheme is accounted for as a defined contribution scheme.

The Company participates in a defined contribution scheme for its Swedish branch. The Company has accounted for pensionable commitments from the acquisition date and contributions to the pension scheme are charged to the profit and loss account in the year in which they are payable.

None of the employees in the Danish Branch are members of a company pension scheme.

STOCKS

Stocks are valued at the lower of cost (determined under a weighted average method) and net realisable value. Net realisable value is based on estimated selling price less further costs expected to be incurred to completion and disposal. Provision is made for obsolete and slow-moving items.

18. PENSION AND OTHER POST EMPLOYMENT COMMITMENTS

The Head office participates in a pension scheme operated by the Church of Jesus Christ of Latter-day Saints (Great Britain), the Deseret UK Benefit Plans ("the Plan"). The Plan is of the defined benefit type and is funded by contributions from the participating companies and their employees at rates determined by independent actuaries in the light of regular valuations. Such contributions are held in trustee-administered funds completely independent of group finances.

The most recent triennial valuation of the Plan, using the projected unit basis as at 31 December 2005, showed that the value of the Plan's assets was 97% of the value of the benefit accrued to members after allowing for future increases to earnings.

In order to produce the 2008 disclosures required under Financial Reporting Standard Number 17 a full valuation as at 31 December 2008 has been updated by an independent qualified actuary. The Plan deficit at 31 December 2008 under Financial Reporting Standard Number 17 was £1.37 million (2007: surplus £4.78 million)

Full disclosure of the valuation is shown in the accounts of The Church of Jesus Christ of Latter-day Saints (Great Britain). The company has accounted for the Plan as if it were defined contribution schemes because it is not feasible to split the assets and liabilities of the scheme between all the companies whose employees are members. Contributions to the scheme for 2008 were £95,850 (2007: £91,334).

On 30 May 2009, the company ceased to be a participant in the Plan. Under advice from the Plan's actuaries a payment of £437,400 was made by the company to the Plan in respect of all future liabilities for pension benefits for company employees and past employees of the company.

The Company also participates in another defined benefit scheme for its German branch. The company is unable to identify its share of the German scheme's assets and liabilities. The Company is responsible for pensionable commitments from the acquisition date and contributions to the pension scheme are charged to the profit and loss account in the year in which they are payable. Prior pensionable commitments remain with Kirche Jesu Christi der Heiligen der Letzten Tage, an Association established under German law who are obliged to fund any resulting deficiency. The company is not legally responsible for the past pensionable commitments. The charge for German Branch pension costs in 2008 was £155,072 (2007: £142,769).

The Company participates in a defined contribution scheme for its Swedish branch. The charge for Swedish Branch pension costs in 2008 was £5,192 (2007: £1,743). None of the employees in the Danish Branch are members of a company pension scheme.
